

Committee: Human Rights 3B  
Subject: Surveillance of People Post Pandemic  
Proposed by: Venezuela

THE GENERAL ASSEMBLY,

*Considering* the potential of surveillance for advancements in public health through measures such as contact tracing,

*Noting* how surveillance can be used to protect a countries citizens and interests,

*Recognizing* that in Article 12 of the Universal Declaration of Human Rights, no one shall be subjected to arbitrary interference with his privacy, family, home or correspondence, nor to attacks upon his honor and reputation,

*Aware* of the possible biases in facial recognition technology,

1. Urges countries to prohibit unnecessary tracking and surveillance of citizens, unless an appropriate and specific reason can be established;
2. Recommends that the countries administering this surveillance be the ones establishing appropriate and specific reasons;
3. Allows countries to utilize artificial intelligence and facial recognition technology to track criminal activity and monitor public health, with the same appropriate and specific criteria listed above;
4. Discourages facial recognition/artificial intelligence as the sole method of determining one's identity;
5. Advocates for the use of this technology along with conventional evidence (tangible objects such as documents, DNA, etc.) to verify one's identity;
6. Prohibits the sale of all data by countries to third-parties using surveillance technology for profit.
